

Building Knowledge Activities

The more your child knows about a topic, the easier it will be for them to comprehend a text about it!

Connect the topic of the Decodable reader to a **hands-on activity!** The main character writes a book, try following similar steps and create a book with your child!

Connect the topic of the Decodable reader to a **real-life experience** (or the virtual replacement)! The main character spends the day at the beach? Make a trip to a nearby beach, or find a virtual tour or video of beaches around the world!

Use **concrete objects** when possible! The main character plays basketball, paints, or helps around the house? Use the objects together and discuss their different functions and possibilities!
